Eric

Lam and I have reviewed and discussed the WRN AOI-1-3 for background sampling and it addresses our questions and concerns that we had earlier. We have no further comments at this point. Also just to let you know, EPA's oversight contractor EA Engineering is getting ready to do split sampling when you mobilize to conduct the background sampling. April Ballweg, EA Engineering Project Manager, will be contacting Roberta Russell with any technical questions she has. Please keep us posted on the sampling schedule so that EA Engineering can be there to conduct split sampling.

Please let me know if you have any questions. Thanks.

Hi Raji –

Per your recent discussion with Matt Wickham, please find attached for your review Workplan Refinement/Modification Notice (WRN) AOI-1-3 for the US Oil Recovery Superfund Site. This WRN proposes a revised background sampling program in response to our discussions over the last few weeks.

Please review this WRN and let me know if it is acceptable or if you have any questions/comments/revisions.

Thanks.
